## CRITICAL BUSINESS DRIVERS THAT DEMAND TRAINING

Training isn't an option for companies that want to remain competitive – it's a critical component of a successful business strategy. Companies are facing many challenges such as maximising their existing investments in technology, integrating new technologies as efficiently as possible, and recruiting and retaining top talent in a competitive job market. The challenge for organisations of all types today is finding a way to provide employees with the training they need, without overburdening available resources. Bistech Education Services can help address this challenge. Bistech is an IBM Authorised Training Partner providing flexible and cost effective education solutions to all IBM Business Analytics customers.

Whether it is delivering IBM's world class public training curriculum or extending this course content into a fully customised experience utilising your own data, Bistech can provide the desired level of education and training to meet your organisations exact requirements. Four Simple Education Options Available!

## IBM PRIVATE GROUP TRAINING

Identical to public training, this offering provides for organisations looking to up skill four or more students at our training facilities or onsite at your own premises. The same high quality training materials, training images and our certified training instructor are provided. All training includes official step-by-step training manuals, lunch and IBM certification of completion.
