

IBM COGNOS Customised Training

At Bistech, we believe that self-sufficiency is the ultimate measure of success with Cognos products.

The expert instructors on the Bistech training team offer complete training for all levels of users in all areas of your organisation.

OUR TRAINERS

CERTIFIED EXPERTS WITH REAL WORLD EXPERIENCE

All Bistech trainers are Cognos Certified Professionals with many years experience developing and deploying Cognos technology across a multitude of industries and operational areas.

ON-SITE TRAINING

COST EFFECTIVE WHEN YOU HAVE SEVERAL PEOPLE TO TRAIN AT ONE TIME

We come to you! Ideal when you need to train several people at one time. Most users are limited in being able to leave the office to attend training. Bringing an instructor to your site allows all departments and all user types to get up to speed quickly, cost effectively and with the advantage of learning directly from a qualified instructor.

CUSTOM TRAINING SOLUTIONS

OUR COURSES CAN BE CUSTOMISED TO TAKE ADVANTAGE OF YOUR DATA

Customisation maximises the learning experience of your business users by using your company's own relevant and specific data. This provides the dual benefit of learning the Cognos applications while at the same time gaining a better understanding of how it will help achieve business benefits.

"Truly excellent end user training in any software hinges on the student's ability to understand and relate to the trainer and the course material"

Neil Jensen | Supply Chain Finance Mgr, Arnott's Biscuits

Workshops and demonstrations can be tailor-made to display your specific data — making the courses more applicable to the workplace and, because it is more relevant to you, it helps trainees retain more of the information they are learning.

Working with you, we follow our proven processes to create and deliver customised course content.

OUR COACHING

ONE-ON-ONE TRAINING ON THE JOB

The Bistech Coaching Service is an initiative aimed at enhancing the skills, proficiency and confidence of people in the workplace who use Cognos.

The service involves an experienced Cognos educator working with each person "one-on-one" to lead them through personalised coaching sessions.

The Bistech Coaching Service aims to fill the gap between classroom training and on the job performance.

Coaching sessions can be provided to individuals on a one-on-one basis or to small groups of users.

THE COST

THE MOST COST-EFFECTIVE COGNOS TRAINING SOLUTION

We allow up to 12 people to attend any of our on-site training courses with pricing from as little as \$590 p/student p/day*[^](ex GST)
